1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1, 3, 6, and 7 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Dix '190.

See Figure 3.

3. Claims 21 and 23 are rejected under 35 U.S.C. 102(b) as being anticipated by Crosser '950.

Note, Figure 6 of Crosser '950, which shows tools with labels as well as a support structure with a plurality of tool markers that correspond to the labels.

4. Claims 31-39 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

It is unclear in these claims what the configuration is marked upon, and where the tools are positioned.

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

6. Claims 40 and 41 are rejected under 35 U.S.C. 103(a) as being unpatentable over Dix '190.

The number of "workstations", such as those shown in Dix '190(20), is considered to be a matter of choice and design.

7. Claims 2, 4, 5, 22, 24 and 25 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

8. Claims 31-39 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Art Unit: 3634

9. Claims 8-20 and 26-30 are allowed.

10. The patents to Bostjancic, Torena, Junkins, Gabryel, McCormick, Allen, Parks, Humbargar, Lookholder and the publication to Sholem are cited to show similar structures.

11. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Robert W. Gibson, Jr. whose telephone number is 703-308-2168. The examiner can normally be reached on M-F 7:30 to 4:00.
